

REMARKS/ARGUMENTS

Reconsideration of this application as amended is respectfully requested.

Claims 1-15 remain pending in this application, with claims 16-21 being restricted.

Applicants have cancelled claim 16-21 due to the Examiner's restriction requirement.

Claims 1,2,5 and 11 stand rejected under 35 U.S.C. 102 as being anticipated by Gallego; claims 3,4,10,13 and 14 stand rejected under 35 USC 103 as being unpatentable over Gallego; Claim 6-8 and 12 are rejected under 35 USC 103 as being unpatentable over Gallego in view of Kang; and Claims 9 and 15 stand rejected under 35 USC 103 as being unpatentable over Gallego in view of Dessiatoun. Applicant respectfully traverses.

According to the Examiner, Gallego teaches each and every element recited in the independent claims. Applicant respectfully disagrees. Gallego, alone or in combination with the cited art fails to teach or suggest a heat sink with the elements recited in independent claims 1 and 11.

In summary, for the reasons noted above, Claims 1-5, 7, 8, 10, 11, 13 and 14 are distinguished over the cited art and are in condition for allowance. It is respectfully submitted that in view of the amendments and arguments set forth herein, the applicable rejections and objections have been overcome. Favorable action is respectfully solicited. Allowance of the Claims is respectfully requested.

Please charge any additional charges to our Deposit Account No. 02-2666.

Respectfully submitted,
